## PROFESSIONAL SUMMARY

A creative and detail-oriented Full Stack Developer with a strong foundation in enterprise Java technologies. Proven ability to develop effective, error-free solutions and a commitment to achieving organizational goals through technical excellence and automated workflows.

## TECHNICAL SKILLS

**Programming Languages:** Java, JavaScript, PHP

**Frameworks & Tools:** Spring Boot, Spring, Hibernate, Servlets, Tailwind CSS, Git.

**Web Services & APIs:** REST APIs.

**Databases:** MySQL, MongoDB.

**Project Management:** Maven

## WORK EXPERIENCE

### Full Stack Developer / Geosieben Consulting PVT LTD

May 2025 – Present

Working as a Full Stack Web developer

- Developed a full-stack HR application using Tailwind CSS, Spring Boot, and MySQL, reducing administrative workload by 40%.
- Engineered and integrated a **Real-time Chatting Module** to facilitate seamless communication between HR representatives and candidates.
- Built a comprehensive **Project Tracker** feature to monitor onboarding tasks, deadlines, and departmental progress in real-time.
- Designed a custom analytics dashboard for HR managers to identify process bottlenecks using modular backend logic and **REST APIs**

### System Engineer Trainee | Infosys

Nov 2024 – Mar 2024

Working as a Systems Engineer Trainee

- Completed comprehensive training in Java enterprise development and modern software engineering practices.
- Developed backend components using **Java**, **Hibernate**, and **Spring Boot**, ensuring high-performance data handling.
- Designed and implemented **REST APIs** to facilitate communication between client-side interfaces and server-side logic.
- Utilized **Servlets** to manage web requests and integrated **MySQL** for robust data persistence.

## PROJECTS

### Geosieben HR Application (Integrated Platform)

- A digital tool designed to automate HR functions, now featuring integrated collaboration tools like live chat and task tracking
- **Key Contribution:** Architected the database schema for the project tracker and implemented the chatting interface.
- **Tech Stack:** HTML, Tailwind CSS, JavaScript, Spring Boot, MySQL.

## CERTIFICATIONS

- **Full Stack Java developer** - Kodnest Technologies PVT LTD

## EDUCATION

### Government Engineering College Hassan

Hassan, Karnataka, India

Bachelor of Engineering – Computer Science and Engineering

2019 - 2022

### Government Polytechnic Belur

Belur, Karnataka, India

Diploma– Computer Science and Engineering

2015 - 2019
